Scandinavaal Rauma Oy has been providing professional personnel services to STX Finland Oy Turku shipyards offshore project. Scandinavaal has been providing highly skilled production welders who have gone through a very tight welding tests in order to start to work in this project. After successful testing the welders have been certified (Lloyds) according to the WPS in this project.

Scandinavaal Rauma Oy has also provided Quality Control Personnel like:
IWS / International Welding Specialist's
IWE / International Welding Engineer's

We have been satisfied with the provided personnel and we can recommend Scandinavaal to be provider for other demanding projects as well.
